CIF - California Interscholastic Federation | 5 seasons | 62W-24L (72.1%)

Biography

I bring a diverse background of high-level playing and coaching experience to the lacrosse community. Over the past five years, I have coached high school, club, and recreational lacrosse, including serving as the Varsity Offensive Coach at JSerra Catholic High School and working with youth athletes through the Rebels rec program for 5th–8th graders. I have also coached multiple club teams, including West Coast Starz 2031, Rebels Select 2032, and Great White Buffalo 2032. In 2024, I became the Lacrosse Director at Togethershship Middle School, where I focus on small group training and skill development. I also lead individual and small group sessions for players of all ages, specializing in shooting, stickwork, and dodging fundamentals.

As a player, I graduated from Poway High School in 2017, where I was named First Team All-CIF in 2015, 2016, and 2017, earned Academic All-American honors in 2016, and was recognized as a US All-American in 2017. I hold the school's single-season and career points records. I went on to play Division I lacrosse at Bryant University, winning an NEC Championship my senior year. After receiving an additional year of eligibility, I transferred to Concordia University Irvine, where I earned First Team All-American and First Team All-Conference honors while helping lead the team to an MCLA National Championship. I later competed at the Division II level, earning First Team All-RMAC recognition as an attackman.

Statement

I am passionate about helping athletes grow both on and off the field. Through my experience as a player and coach, I focus on building strong fundamentals, confidence, and game IQ. My goal is to create a competitive and positive environment where players can develop their skills, work as a team, and build a lasting love for lacrosse.

PRINCIPLES

• A core principle is confidence through repetition. Every dodge or shot you face in a game should be repped on your own time. This principle is supported by a natural love for the game, which motivates a player to put in the work on their own. Finding a love for the process is critical for development.
