Biography

Detailed and Driven coach and talent evaluator. Having spent many years in the pro football realm I have developed a keen eye for what plays in the NFL. I have extensive experience with many different video systems (DVSPORT, XOS, HUDL) and have broken down film and made cutups with each. I have a vast knowledge of Visio software and drawing of plays and diagrams. Looking forward to building my network more everyday and helping coaches any way possible.

Statement

I have spent the last 16 years developing athletes at all levels. I have extensive experience coaching on both sides of the ball, with most of my professional experience spent working with the Secondary and Linebackers. I have spent time with the Pittsburgh Steelers in both a scouting and coaching role. I have also worked in other professional leagues and helped develop players for opportunities back in the NFL.
